SECTION E

(Case/Source-Based Questions) *(3×4=12)*

34. Read the given source and answer the questions that follow :

Print Culture and the French Revolution

Many historians have argued that print culture created the conditions within which French Revolution occurred.

Some arguments have been usually put forward in this context.

First : print popularised the ideas of the Enlightenment thinkers. Collectively, their writings provided a critical commentary on tradition, superstition and despotism. They argued for the rule of reason rather than custom, and demanded that everything be judged through the application of reason and rationality. They attacked the sacred authority of the Church and the despotic power of the state, thus eroding the legitimacy of a social order based on tradition. The writings of Voltaire and Rousseau were read widely; and those who read these books saw the world through new eyes, eyes that were questioning, critical and rational.

Second : print created a new culture of dialogue and debate. All values, norms and institutions were re-evaluated and discussed by a public that had become aware of the power of reason, and recognised the need to question existing ideas and beliefs. Within this public culture, new ideas of social revolution came into being.

(34.1) What impact did the ideas of Enlightenment thinkers have on society ? *1*

(34.2) How did print culture affect religion in France ? *1*

(34.3) How did print culture contribute to the social revolution in France ? *2*

35. Read the given source and answer the questions that follow :

Decentralisation in India

The need for decentralisation was recognised in our Constitution. Since then, there have been several attempts to decentralise power to the level of villages and towns. Panchayats in villages and municipalities in urban areas were set up in all the States. But these were directly under the control of state governments. Elections to these local governments were not held regularly. Local governments did not have any powers or resources of their own. Thus, there was very little decentralisation in effective terms.

#

A major step towards decentralisation was taken in 1992. The Constitution was amended to make the third-tier of democracy more powerful and effective.

(35.1) At how many levels has decentralisation of power been done in the Indian Constitution ? *1*

(35.2) Explain the role of local self-government in solving problems. *1*

(35.3) "Local government is the best way to realise one important principle of democracy, namely local self-government." Explain the statement. *2*

He then intends to store the rest of the potatoes in a cold storage and apply for a fresh loan from the bank against the cold storage receipt. The bank offers this facility to farmers who have taken crop loan from them.

(36.1) Under which source does Arun's loan come ? *1*

(iv) This glorious time, in their view, was followed by a history of decline, when India was colonised. (iv) During the Swadeshi movement in Bengal, a tricolour flag (red, green and yellow) was designed. It had eight lotuses representing eight provinces of British India, and a crescent moon, representing Hindus and Muslims. (v) By 1921, Gandhiji had designed the Swaraj flag. It was again a tricolour (red, green and white) and had a spinning wheel in the centre, (vi) Carrying the flag, holding it aloft, during marches became a symbol of defiance. (vii) Any other relevant point. (**Any two points to be explained.)**		
22	**Why is planning necessary for judicious use of resources? Explain.** (i) Planning is the widely accepted strategy for judicious use of resources. (ii) It has importance in a country like India, which has enormous diversity in the availability of resources. (iii) There are regions which are rich in certain types of resources but are deficient in some other resources. (iv) There are some regions which can be considered self-sufficient in terms of the availability of resources and there are some regions which have acute shortage of some vital resources. (vi) Arunachal Pradesh has abundance of water resources but lacks in infrastructural development. Das and Motilal Nehru formed the Swaraj Party within the Congress to argue for a return to council politics. 	Section E **CASE BASED/ SOURCE BASED QUESTIONS**		**3X4= 12**
34	**Read the given source and answer the questions that follow:** **Print Culture and the French Revolution** Many historians have argued that print culture created the conditions within which French Revolution occurred. Some arguments have been usually put forward in this context. First: print popularised the ideas of the Enlightenment thinkers. Collectively, their writings provided a critical commentary on tradition, superstition and despotism. They argued for the rule of reason rather than custom, and demanded that everything be judged through the application of reason and rationality. They attacked the sacred authority of the Church and the despotic power of the state, thus eroding the legitimacy of a social order based on tradition. The writings of Voltaire and Rousseau were read widely; and those who read these books saw the world through new eyes, eyes that were questioning, critical and rational. Second: print created a new culture of dialogue and debate. All values, norms and institutions were re-evaluated and discussed by a public that had become aware of the power of reason, and recognised the need to question existing ideas and beliefs. Within this public culture, new ideas of social revolution came into being. **34.1. 35	**Read the given source and answer the questions that follow**: **Decentralisation in India** The need for decentralisation was recognised in our Constitution. Since then, there have been several attempts to decentralise power to the level of villages and towns. Panchayats in villages and municipalities in urban areas were set up in all the States. But these were directly under the control of state governments. Elections to these local governments were not held regularly. Local governments did not have any powers or resources of their own. Thus, there was very little decentralisation in effective terms. A major step towards decentralisation was taken in 1992. The Constitution was amended to make the third-tier of democracy more powerful and effective. **35.1. At how many levels has decentralisation of power been done in the Indian Constitution?
