(Case/Source Based Questions)

34. Read the given source and answer the questions that follow : 4

Pages of Gutenberg's Bible, the first printed book in Europe.

Gutenberg printed about 180 copies, of which no more than 50 have survived.

Look at these pages of Gutenberg's Bible carefully. They were not just products of new technology. The text was printed in the new Gutenberg press with metal type, but the borders were carefully designed, painted and illuminated by hand by artists. No two copies were the same. Every page of each copy was different. Even when two copies look similar, a careful comparison will reveal differences. Elites everywhere preferred this lack of uniformity: what they possessed then could be claimed as unique, for no one else owned a copy that was exactly the same.

In the text you will notice the use of colour within the letters in various places. This had two functions : it added colour to the page, and highlighted all the holy words to emphasise their significance. But the colour on every page of the text was added by hand. Gutenberg printed the text in black, leaving spaces where the colour could be filled in later.

(34.1) Mention the contribution of Gutenberg in the field of printing. **1**

(34.2) How were the books borders painted and illuminated ? **1**

(34.3) Describe any two benefits of colouring in the letters. **2**

35. Read the given source and answer the questions that follow : 4

Primitive Subsistence Farming

It is a 'slash and burn' agriculture. Farmers clear a patch of land and produce cereals and other food crops to sustain their family. When the soil fertility decreases, the farmers shift and clear a fresh patch of land for cultivation. This type of shifting allows Nature to replenish the fertility of the soil through natural processes; land productivity in this type of agriculture is low as the farmer does not use fertilisers or other modern inputs. It is known by different names in different parts of the country.

It is *jhumming* in north-eastern states like Assam, Meghalaya, Mizoram and Nagaland; Pamlou in Manipur, Dipa in Bastar district of Chhattisgarh, and in Andaman and Nicobar Islands.

(35.1) 'Slash and Burn' system of agriculture comes under which type of farming ? **1**

(35.2) Why is productivity low in 'Slash and Burn' system ? **1**

(35.3) Describe any two features of 'Slash and Burn' system of agriculture. **2**

36. Read the given source and answer the questions that follow : 4

State Reorganisation Commission

"The report of the States Reorganisation Commission (SRC), was implemented on November 1, 1956. This, in its own time and own way, has also transformed the political and institutional life of the nation. ... Gandhi and other leaders promised their followers that when freedom came, the new nation would be based on a new set of provinces, these based on the principle of language. However, when India was finally free in 1947, it was also divided...

Far from undermining Indian unity, linguistic states have helped strengthen it. It has proved to be perfectly consistent to be Kannadiga and Indian, Bengali and Indian, Tamil and Indian, Gujarati and Indian. To be sure, these states based on language sometimes quarrel with one another.

(36.1) What promise did Gandhiji make to his followers ? **1**

(36.2) How did language strengthen the unity of India ? **1**

(36.3) Mention the names of major language of Kerala and Andhra Pradesh states. **2**

	Marking Scheme **Strictly Confidential** **(For Internal and Restricted use only)** **Secondary School Examination February- 2025** **SUBJECT NAME: Social Science SUBJECT CODE 087 PAPER CODE 32/5/1**
	General Instructions: -
1.	You are aware that evaluation is the most important process in the actual and correct assessment of the candidates. A small mistake in evaluation may lead to serious problems which may affect the future of the candidates, education system and teaching profession. To avoid mistakes, it is requested that before starting evaluation, you must read and understand the spot evaluation guidelines carefully.
2.	**"Evaluation policy is a confidential policy as it is related to the confidentiality of the examinations conducted, Evaluation done and several other aspects. Its' leakage to public in any manner could lead to derailment of the examination system and affect the life and future of millions of candidates. Sharing this policy/document to anyone, publishing in any magazine and printing in News Paper/Website etc. may invite action under various rules of the Board and IPC."**
3.	Evaluation is to be done as per instructions provided in the Marking Scheme. It should not be done according to one's own interpretation or any other consideration. Marking Scheme should be strictly adhered to and religiously followed. **However, while evaluating, answers which are based on latest information or knowledge and/or are innovative, they may be assessed for their correctness otherwise and due marks be awarded to them. In Class-X, while evaluating two competency-based questions, please try to understand given answer and even if reply is not from marking scheme but correct competency is enumerated by the candidate, due marks should be awarded.**
4.	The Marking scheme carries only suggested value points for the answers. These are in the nature of Guidelines only and do not constitute the complete answer. The students can have their own expression and if the expression is correct, the due marks should be awarded accordingly.
5.	The Head-Examiner must go through the first five answer books evaluated by each evaluator on the first day, to ensure that evaluation has been carried out as per the instructions given in the Marking Scheme. If there is any variation, the same should be zero after deliberation and discussion. The remaining answer books meant for evaluation shall be given only after ensuring that there is no significant variation in the marking of individual evaluators.
6.	Evaluators will mark (√) wherever answer is correct. For wrong answer CROSS 'X" be marked. Evaluators will not put right **(✓)** while evaluating which gives an impression that answer is correct and no marks are awarded. **This is most common mistake which evaluators are committing.**
7.	If a question has parts, please award marks on the right-hand side for each part. Marks awarded for different parts of the question should then be totaled up and written in the left-hand margin and encircled. This may be followed strictly.
8.	If a question does not have any parts, marks must be awarded in the left-hand margin and encircled. This may also be followed strictly.
9.	If a student has attempted an extra question, answer of the question deserving more marks should be retained and the other answer scored out with a note **"Extra Question"**.
10.	No marks to be deducted for the cumulative effect of an error. It should be penalized only once.
11.	A full scale of marks _____80_____(example 0 to 80/70/60/50/40/30 marks as given in Question Paper) has to be used. Please do not hesitate to award full marks if the answer deserves it.
12.	Every examiner has to necessarily do evaluation work for full working hours i.e., 8 hours every day and evaluate 20 answer books per day in main subjects and 25 answer books per day in other subjects (Details are given in Spot Guidelines).
13.	Ensure that you do not make the following common types of errors committed by the Examiner in the past:- Giving more marks for an answer than assigned to it.

	● Wrong totaling of marks awarded on an answer. ● Wrong transfer of marks from the inside pages of the answer book to the title page. Wrong question wise totaling on the title page. ● Leaving answer or part thereof unassessed in an answer book. ● Wrong totaling of marks of the two columns on the title page. ● Wrong grand total. ● Marks in words and figures not tallying/not same. ● Wrong transfer of marks from the answer book to online award list. ● Answers marked as correct, but marks not awarded. (Ensure that the right tick mark is correctly and clearly indicated. It should merely be a line. Same is with the X for incorrect answer.) ● Half or a part of answer marked correct and the rest as wrong, but no marks awarded.
14.	While evaluating the answer books if the answer is found to be totally incorrect, it should be marked as cross (X) and awarded zero (0) Marks.
15.	Any un assessed portion, non-carrying over of marks to the title page, or totaling error detected by the candidate shall damage the prestige of all the personnel engaged in the evaluation work as also of the Board. Hence, in order to uphold the prestige of all concerned, it is again reiterated that the instructions be followed meticulously and judiciously.
16.	The Examiners should acquaint themselves with the guidelines given in the "**Guidelines for spot Evaluation**" before starting the actual evaluation.
17.	Every Examiner shall also ensure that all the answers are evaluated, marks carried over to the title page, correctly totaled and written in figures and words.
18.	The candidates are entitled to obtain photocopy of the Answer Book on request on payment of the prescribed processing fee. All Examiners/Additional Head Examiners/Head Examiners are once again reminded that they must ensure that evaluation is carried out strictly as per value points for each answer as given in the Marking Scheme.

28	**Evaluate the system of 'Checks and Balances' in the horizontal distribution of power in India.** (i) The horizontal form of power sharing allows different organs of government such as the legislature, executive and judiciary placed at the same level to exercise different powers. (ii) Such a separation ensures that none of the organs can exercise unlimited power. (iii) Each organ checks the others. (iv) This results in a balance of power among various institutions. (v) In a democracy, even though ministers and government officials exercise power, they are responsible to the Parliament or State Assemblies. (vi) Although judges are appointed by the executive, they can check the functioning of executive or laws made by the legislatures. (vii) This arrangement is called a system of checks and balances. 29	**Explain three major challenges before Political Parties in India.** (i) The first challenge is lack of internal democracy within parties. (ii) The concentration of power in the hands of one or few leaders. (iii) Parties do not keep membership registers, do not hold organizational meetings, and do not conduct internal elections regularly. (iv) The challenge of dynastic succession is commonly faced by political parties. (v) Most political parties do not practice open and transparent procedures for their functioning. (vi) The growing role of money and muscle power in parties during elections is another challenge. (vii) Parties are focused only on winning elections, they tend to use short-cuts to win elections. (viii) They tend to nominate those candidates who have or can raise lots of money.	**57-58P**	**3X1=3**

	(ix) Rich people and companies who give funds to the parties tend to have influence on the policies and decisions of the party. (x) In some cases, parties support criminals who can win elections. 30	**(a) "The political and constitutional changes that came in the wake of the French Revolution led to the transfer of sovereignty from monarchy to a body of French Citizens." Explain the statement.** (i) The French revolution proclaimed that it was the people who would henceforth constitute the nation and shape its destiny. (ii) From the very beginning, the French revolutionaries introduced various measures and practices that could create a sense of collective identity amongst the French people. (iii) The ideas of 'la patrie' (the fatherland) and 'le citoyen' (the citizen) emphasized the notion of a united community enjoying equal rights under a constitution. (iv) A new French flag, the tricolour, was chosen to replace the former royal standard. (v) The Estates General was elected by the body of active citizens and renamed the National Assembly. (vi) New hymns were composed, oaths taken and martyrs commemorated, all in the name of the nation. (vii) A centralized administrative system was put in place and it formulated uniform laws for all citizens within its territory. (viii) Internal customs duties and dues were abolished and a uniform system of weights and measures was adopted. (ix) Regional dialects were discouraged and French, as it was spoken and written in Paris, became the common language of the nation.	**5 H**	**5X1=5**

	(x) The revolutionaries further declared that it was the mission and the destiny of the French nation to liberate the people of Europe from despotism. (xi) In other words, to help other people of Europe to become nations. (xii) Any other relevant point. **Any five points to be explained.** **OR** **(b) "During 19th century, in the economic sphere, liberalization stood for the freedom of markets and the abolition of state-imposed restrictions on the movement of goods and capital." Explain the statement.** (i) Napoleon's administrative measures had created out of countless small principalities a confederation of 39 states. (ii) Each of these possessed its own currency, and weights and measures. (iii) Duties were often levied according to the weight or measurement of the goods. (iv) As each region had its own system of weights and measures, this involved time-consuming calculation. (v) Such conditions were viewed as obstacles to economic exchange and growth by the new commercial classes, who argued for the creation of a unified economic territory allowing the unhindered movement of goods, people and capital. (vi) In 1834, a 'customs union' or 'zollverein' was formed at the initiative of Prussia and joined by most of the German states. (vii) The union abolished tariff barriers and reduced the number of currencies from over thirty to two. (viii) The creation of a network of railways further stimulated mobility, harnessing economic interests to national unification. (ix) A wave of economic nationalism strengthened the wider nationalist sentiments growing at the time. (x) Any other relevant point. **Any five points to be explained.**	**9-10 H**	**5X1=5**

31	**(a) Study the given flow chart and answer the question that follows:**  **Explain the added value product in the textile industry on the bases of above flowchart.** (i) Cotton is harvested from cotton plants and processed to remove seeds and impurities. The raw fibre obtained is the initial stage of value addition. (ii) The raw cotton fibre is spun into yarns through various spinning techniques. It enhances the usability of cotton by making it suitable for weaving or knitting. (iii) The spun yarn is woven or knitted to create fabric. This step transforms the material into a more functional form, adding value by making it suitable for further processing. (iv) The fabric undergoes dyeing, printing, and finishing processes to improve its aesthetic appeal, durability, and texture. This increases the fabric's market value and makes it ready for garment production. (v) The finished fabric is cut and stitched into garments such as shirts, dresses, or jeans making it ready for consumers. (vi) Cotton industry, by creating demands supports many other industries, such as chemicals and dyes. (vii) Any other relevant point. **To be assessed as whole.** **OR**	**60 G**	**5X1=5**
	(b) Study the given flowchart and answer the question that follows:  **Explain the steel manufacturing process on the bases of the above flowchart.** (i) Raw materials like iron ore, coal, and limestone are transported to the steel plant. (Example: Iron ore from mines in India (like Odisha or Jharkhand) is transported to steel plants).	**62 G**	**5X1=5**

	(ii) The raw materials are fed into a blast furnace, where they are melted at high temperatures. (Example: In steel plants, coke is used as fuel to melt iron ore). (iii) The molten iron extracted from the blast furnace is called pig iron, which is high in carbon content and not yet steel. (Example: Pig iron is used for refining steel). (iv) The pig iron is processed in steel-making furnaces to reduce impurities and adjust its composition. (Example: Companies produce different grades of steel for various industrial uses). (v) The purified steel is then shaped into desired forms like sheets, rods, or beams through rolling, forging, or casting. (Example: Steel is used to manufacture construction materials, automobile parts, etc.). (vi) Any other relevant point. **To be assessed as whole.**

Look at these pages of Gutenberg's Bible carefully. They were not just products of new technology. The text was printed in the new Gutenberg press with metal type, but the borders were carefully designed, painted and illuminated by hand by artists. No two copies were the same. Every page of each copy was different. Even when two copies look similar, a careful	**109 H**	**4**

In the text you will notice the use of colour within the letters in various places. This had two functions: it added colour to the page, and highlighted all the holy words to emphasise their significance. But the colour on every page of the text was added by hand. Gutenberg printed the text in black, leaving spaces where the colour could be filled in later. **34.1 Mention the contribution of Gutenberg in the field of printing. 35	**Read the following source carefully and answer the questions that follow:** **Primitive Subsistence Farming** It is a 'slash and burn' agriculture. Farmers clear a patch of land and produce cereals and other food crops to sustain their family. When the soil fertility decreases, the farmers shift and clear a fresh patch of land for cultivation. This type of shifting allows Nature to replenish the fertility of the soil through natural processes; land productivity in this type of agriculture is low as the farmer does not use fertilisers or other modern inputs. It is known by different names in different parts of the country. It is jhumming in north-eastern states like Assam, Meghalaya, Mizoram and Nagaland; Pamlou in Manipur, Dipa in Bastar district of Chhattisgarh, and in Andaman and Nicobar Islands.	**30 G**	**4**

	35.1 'Slash and Burn' system of agriculture comes under which type of farming? (1) (i) Primitive Subsistence Farming **35.2 Why is productivity low in 'Slash and Burn' system?
